Profile

Rutgers University, New Brunswick - Computer Science - Class of 2019
Personal website: https://jiglet.github.io

Experience

WEB DEV INTERN   **MJJT CONSULTANTS**
JUNE - AUGUST 2017   FLOOR 59, EMPIRE STATE BUILDING, NYC

  -Web design using HTML5, CSS (Bootstrap), and Javascript, to create webpages for clients.
  -Utilized Joomla for quick and easy building and management of multiple webpages through plugins like SecurityCheckPro. Modified PHP and CSS within Joomla templates to accommodate client needs.
  -Assisted the developer team with testing and logging errors in the beta stages of their application designed for BlueGeneration.

IT INTERN   **METRO CSG**
APRIL - JUNE 2017   131 WEST 33RD STREET, NYC

  -Worked with team of employees in managing and configuring cloud services (Office 365, Microsoft Azure AD, Microsoft Intune) for clients.
  -Answered calls to provide customer service for clients who had computer/cloud issues. For on-site issues, assisted and shadowed colleagues.

SEASONAL INTERN   **GARDEN HOME REALTY**
SUMMER 2016   LIVINGSTON, NJ

  -Worked with another intern to support realtors with technical needs and issues
  -Troubleshot company computers and wifi networks and conducted data entry on past and current sales.

KUMON TUTOR   **KUMON**
SUMMER 2015

  -Tutored students in mathematics and writing and reading comprehension from elementary school to first year high school level.

Projects

CONNECT FOUR - JAVA APP

  -Fully functioning connect 4 game with game board (did not code the board myself)
  -Capable of 2 player or vs. AI

3D MODELING - SKETCHUP

  -Late 2016, designed new 3D models in SketchUp of multiple NJIT research labs
  -These models will be used by NJIT for their lab renovation in 2017–2018.
